HONOR AWARDS

Creative (09/2023 - 01/2024)
Hadramout Foundation - Human Development

Dragon (09/2023 - 01/2024)
Hadramout Foundation - Human Development

SKILLS

`Analytical Skills` `Android` `API Integration` `C#`
`Clean Code` `Collaborative` `Communication`
`Flutter` `Git` `GitHub` `Junior Technical Support`
`Problem Solving` `Python` `SQL` `Talented`
`Team Lead` `UI /UX`

PERSONAL PROJECTS

jh_networkservice (Open Source) (02/2025 - 03/2025)
- is a Flutter package that simplifies network requests by allowing multiple base URLs and providing a configurable network service. It utilizes the Dio HTTP client to handle requests and responses efficiently.

jh_sharedprefs (Open Source) (02/2025 - 03/2025)
- (Flutter package) is a utility for managing persistent storage in Flutter applications using the shared_preferences package. It provides a simple and efficient way to store, retrieve, update, and delete data in key-value pairs. This package is designed to simplify working with SharedPreferences by offering a clean and intuitive API.

jh_services (Open Source) (09/2024 - 10/2024)
- is a Flutter package that provides a collection of services for handling common tasks in your Flutter applications, such as shared preferences, network requests, image and file picking, and checking internet connectivity.

Q Cashire (12/2023 - 01/2024)
- a sales management and invoicing app built with Flutter and Laravel API. It helps businesses handle sales, generate invoices, and track inventory effectively. The app has a user-friendly interface and works on both iOS and Android devices.

EDUCATION

Information Techhnology (Bachelor's degree)
Hadhramout University

07/2019 - 10/2023   *Mukalla,Yemen*
